

How to Clear My Browser's Cache, Cookies & History

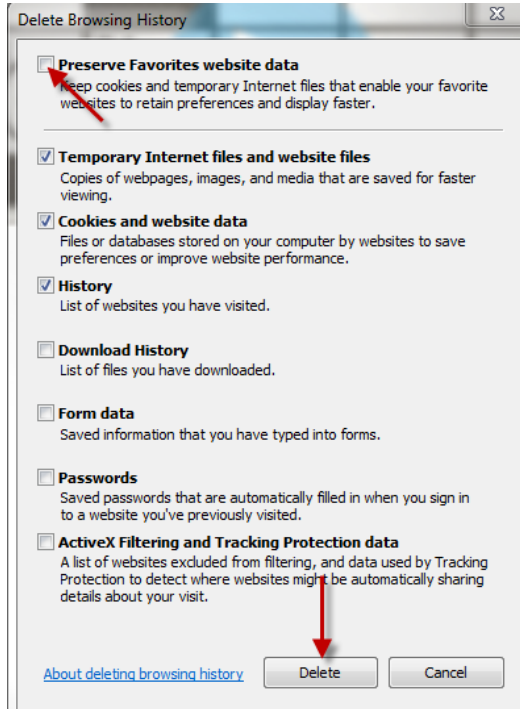

Internet Explorer 8 and Higher

- I. From the **Tools** menu, select **Delete browsing history**.
 - a. If the menu bar is hidden, press **Alt** to make it visible.

2. Deselect **Preserve Favorites website data**, and then **select**:
 - a. **Temporary Internet files or Temporary Internet files and website files**
 - b. **Cookies or Cookies and website data**

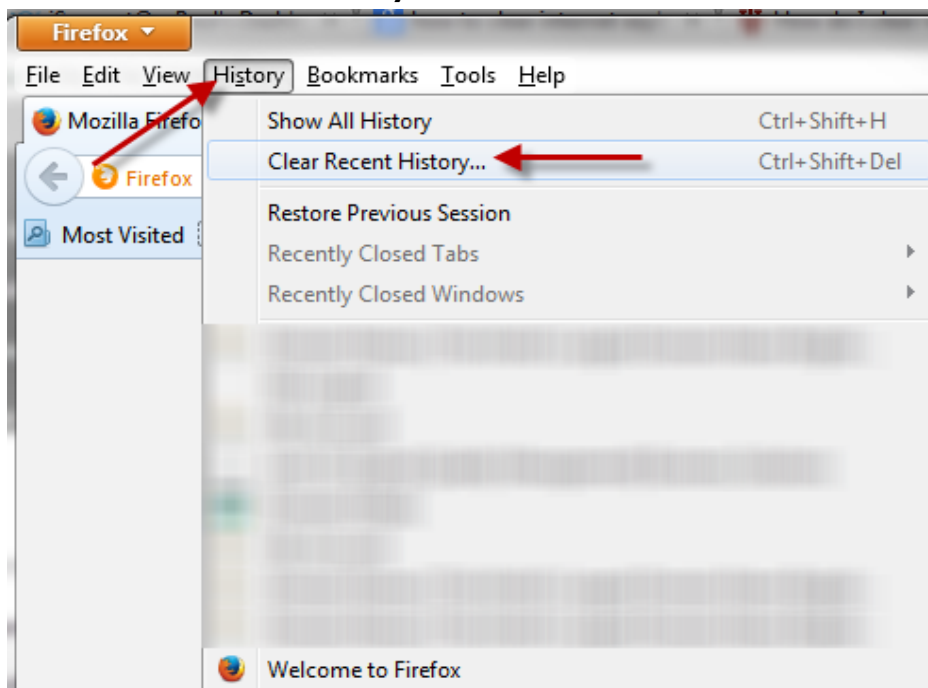

c. History

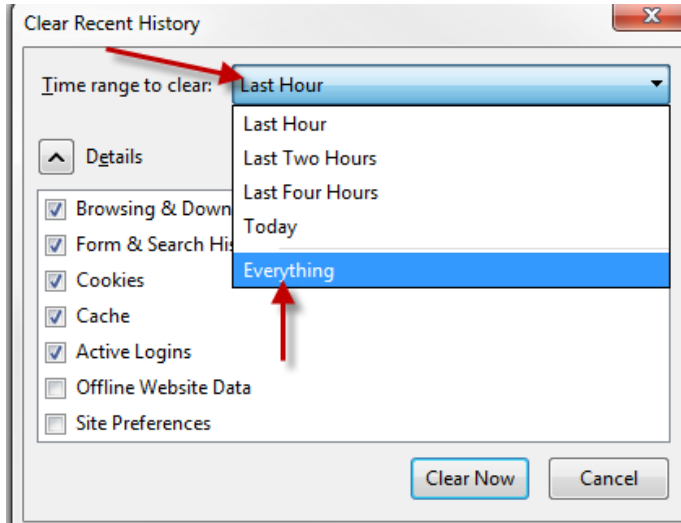

3. Click the **Delete** button.

Firefox

- I. From the History menu, select **Clear Recent History**.
 - a. If the menu bar is hidden, press **Alt** to make it visible.
 - b. Select **Clear Recent History**.

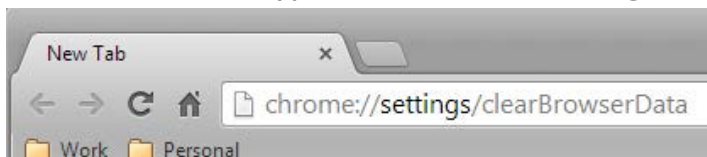

- From the **Time range to clear** drop-down menu, select the desired range e.g., **Everything**. To clear your entire cache, select **Everything**. Click the **Clear Now** button.

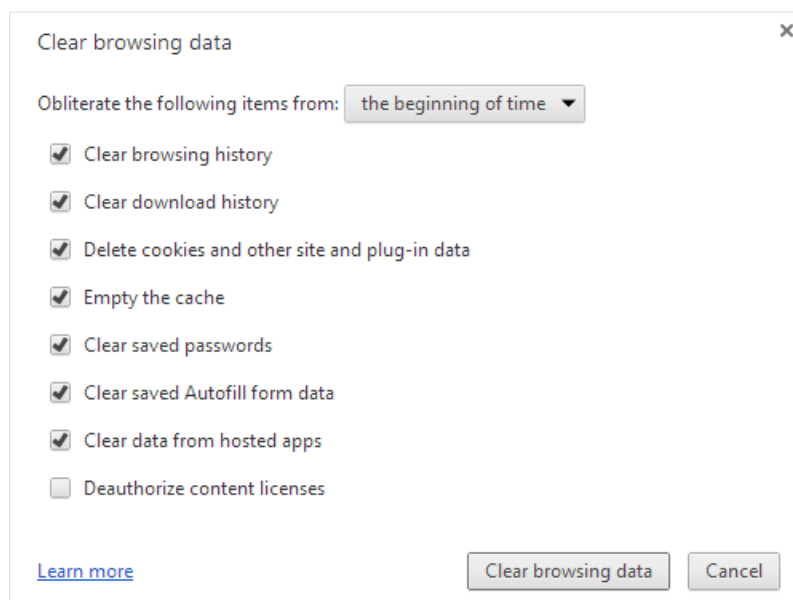

- If the arrow next to “Details” is a down arrow, click it to choose which elements of the history to clear. Click the **Clear Now** button.

Chrome

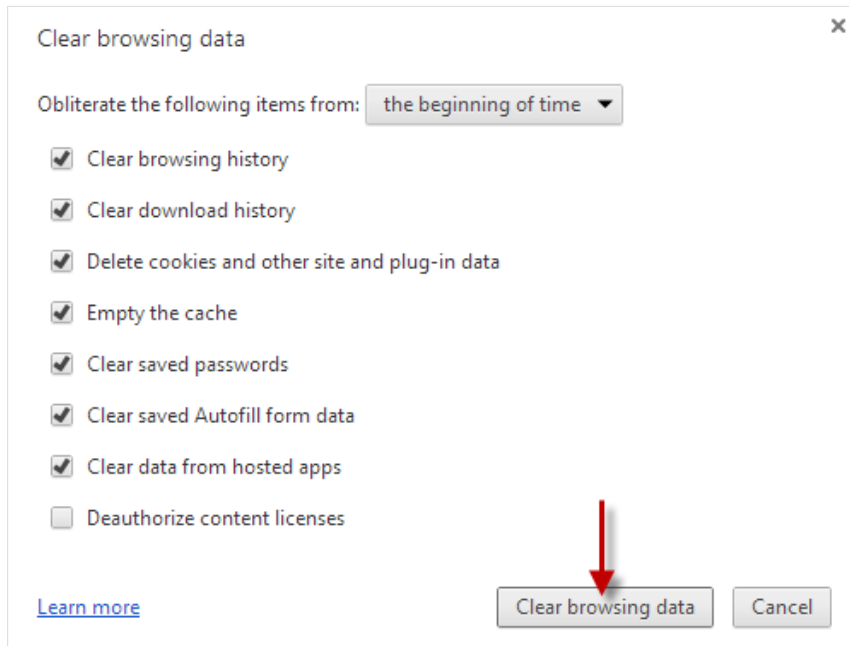

- In the browser bar, type in: **chrome://settings/clearBrowserData** and then hit **Enter**.

- This invokes the **Clear browser data** window

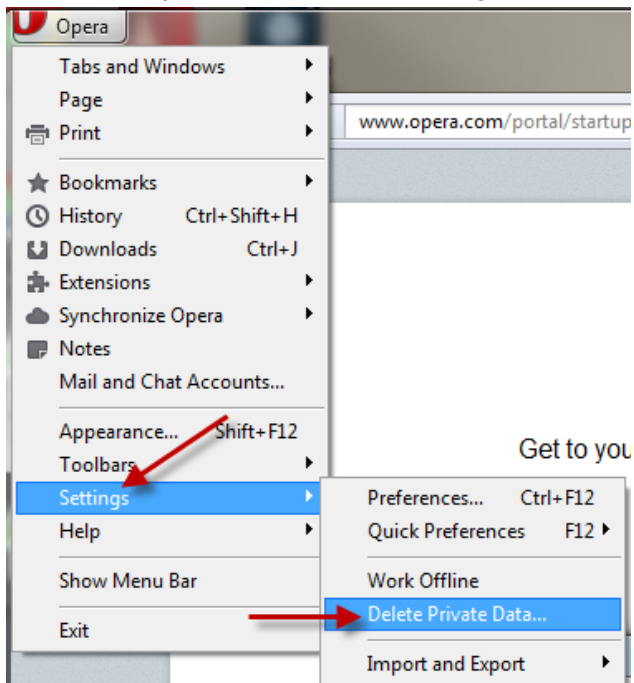

3. Select the items you want to clear (e.g., **Clear browsing history**, **Clear download history**, **Empty the cache**, **Delete cookies and other site and plug-in data**). Click the **Clear browsing data** button.

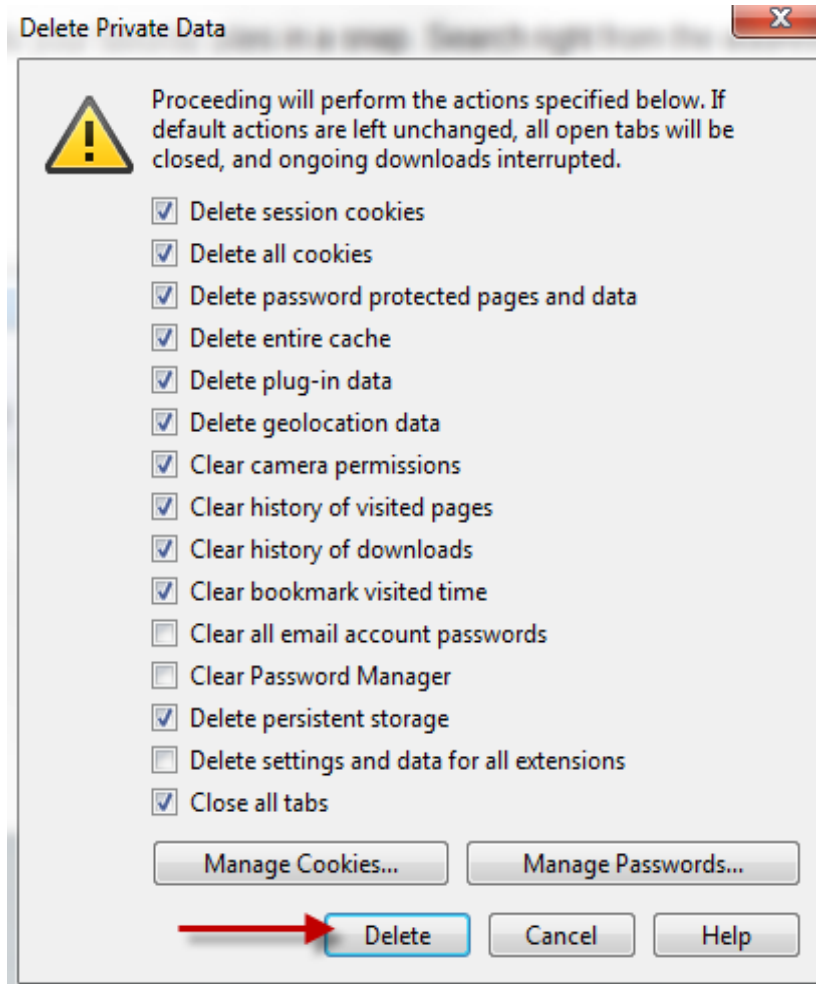

Opera

- I. From the Opera menu, select Settings, and then Delete Private Data.

2. In the dialog box that opens, select the items you want to clear, and then click **Delete**.

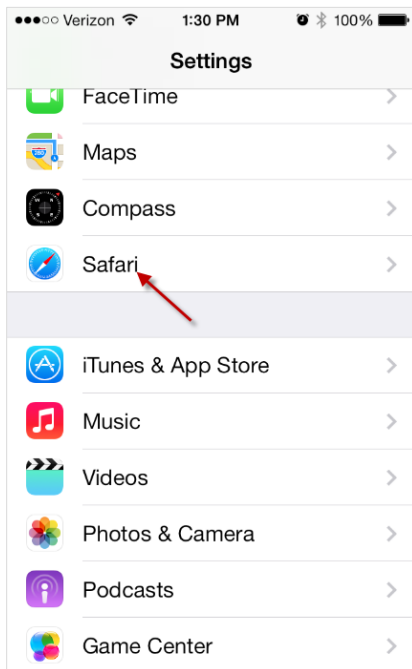

iPhone

- I. From the Home screen:
 - a. choose **Settings**

- b. **Safari**

c. Tap **Clear History** and then **Clear Cookies and Data**
