

Practice Greeter + Screening Process

All patients, vendors and guests that enter an IHA practice will be screened prior to being seated in waiting area or upon entering the practice.

Step 1 | Your temperature will be taken with an infrared thermometer.

A Do you have ANY of the following new or worsening symptoms?

- Fever >100 F
- Loss of taste or smell
- Cough
- Shortness of breath
- Toe/finger lesions (pediatric patients)
- Vomiting

- If **YES** to fever and/or vomiting **ONLY**, **AND** symptoms started within 48 hours of COVID vaccination and have not continued more than 2 days, continue to **B**. If you have had fever and vomiting for more than 2 days, please wait in your car and we will notify practice leader.
- If **YES** and you do not meet the above criteria, please wait in your car and we will notify practice leader.
- If **NO** proceed to section **B**.

B Do you have TWO or more of the following new or worsening symptoms? Do not include symptoms you may have a history of routinely experiencing, such as seasonal allergies.

- Chills
- Fatigue
- Headache
- Runny nose
- Sore throat
- Diarrhea
- Congestion
- Muscle pain or body aches

- If **YES** to chills, fatigue, muscle pain, body aches, and or headache **AND** symptoms started **within 48 hours of COVID vaccination**, and have not continued more than 2 days, proceed to Step 2. If symptoms have lasted longer than 2 days, please wait in your car and we will notify practice leader.
- If **YES** and do not meet the above criteria, please wait in your car and we will notify clinic leader.
- If **NO** continue to Step 2.

Step 2 | In the last 14 days:

- Have you had close contact with a person confirmed with COVID-19 (spent a total of 15 minutes or more within 6 feet of someone over a 24-hour period)?
- Have you been diagnosed with COVID-19 or tested for COVID-19 and are awaiting test results?

If **NO**, please proceed to your appointment.

If **YES**, please **RETURN TO YOUR CAR** and we will notify the practice leader.

* Exception: For those that are an exposure, without symptoms, if fully vaccinated against COVID, receipt of vaccine >2 weeks ago and no more than 90 days, they can come into the practice.

** Fully vaccinated: received both doses of a two-dose series, must be >2 weeks from last dose or one dose of a single dose series.
